**Origins of Life** Nov 29 2022  
Origins of Life: A Cosmic Perspective presents an overview of the concepts, methods, and theories of astrobiology and origins of life research while presenting a summary of the latest findings. The book provides insight into the environments and processes that gave birth to life on our planet, which naturally informs our assessment of the probability that has arisen (or will arise) elsewhere. In addition, the book encourages readers to go beyond basic concepts, to explore topics in greater depth, and to engage in lively discussions. The text is intended to be suitable for mid- and upper-level undergraduates and beginning graduate students and more generally as an introduction and overview for researchers and general readers seeking to follow current developments in this interdisciplinary field. Readers are assumed to have a basic grounding in the relevant sciences, but prior specialized knowledge is not required. Each chapter concludes with a list of questions and discussion topics as well as suggestions for further reading. Some questions can be answered with reference to material in the text, but others require further reading and some have no known answers. The intention is to encourage readers to go beyond basic

concepts, to explore topics in greater depth, and, in a classroom setting, to engage in lively discussions with class members.

*The Origins of Virtue* Jul 02 2020 If, as Darwin suggests, evolution relentlessly encourages the survival of the fittest, why are humans compelled to live in cooperative, complex societies? In this fascinating examination of the roots of human trust and virtue, a zoologist and former American editor of the Economist reveals the results of recent studies that suggest that self-interest and mutual aid are not at all incompatible. In fact, he points out, our cooperative instincts may have evolved as part of mankind's natural selfish behavior—by exchanging favors we can benefit ourselves as well as others. Brilliantly orchestrating the newest findings of geneticists, psychologists, and anthropologists, *The Origins of Virtue* re-examines the everyday assumptions upon which we base our actions towards others, whether in our roles as parents, siblings, or trade partners. With the wit and brilliance of *The Red Queen*, his acclaimed study of human and animal sexuality, Matt Ridley shows us how breakthroughs in computer programming, microbiology,

and economics have given us a new perspective on how and why we relate to each other.

A comprehensive study of New England families and their English origins.

## **Unruly Americans and the Origins of the Constitution**

Jun 24 2022 Average

Americans Were the True Framers of the Constitution  
Woody Holton upends what we think we know of the Constitution's origins by telling the history of the average Americans who challenged the framers of the Constitution and forced on them the revisions that produced the document we now venerate. The framers who gathered in Philadelphia in 1787 were determined to reverse America's post-Revolutionary War slide into democracy. They believed too many middling Americans exercised too much influence over state and national policies. That the framers were only partially successful in curtailing citizen rights is due to the reaction, sometimes violent, of unruly average Americans. If not to protect civil liberties and the freedom of the people, what motivated the framers? In *Unruly Americans and the Origins of the Constitution*, Holton provides the startling discovery that the primary purpose of the Constitution was, simply put, to

make America more attractive to investment. And the linchpin to that endeavor was taking power away from the states and ultimately away from the people. In an eye-opening interpretation of the Constitution, Holton captures how the same class of Americans that produced Shays's Rebellion in Massachusetts (and rebellions in damn near every other state) produced the Constitution we now revere. *Unruly Americans and the Origins of the Constitution* is a 2007 National Book Award Finalist for Nonfiction.

**The Legend of Wonder Woman Vol. 1: Origins** Sep 03 2020 THE BEGINNING OF A LEGEND! On the hidden island of Themyscira, the Amazons, led by Queen Hippolyta, live in a kingdom of peace, protected by the gods. But the balance is upset when Hippolyta is granted what no immortal may have: a child, given life from the clay of the island. She is the princess Diana, who alone can sense the evil that is infesting the Amazon's home. But when a man from the outside world is brought to Themyscira as part of a conspiracy to overthrow its queen, Diana will risk everything to save his innocent life...and lose everything in the process. Soon, the Amazon princess finds herself in a world she never knew existed—America, a land of untold wonders that also finds itself threatened by a great war abroad. In order to get back home, Diana and her new friends Steve Trevor and Etta Candy must head into the war

zone and find the Nazi agent known as the Duke of Deception, who wields a powerful artifact that belongs to Hippolyta. And in order to defeat this powerful enemy, the princess of peace must become the hero she was meant to be. She must become Wonder Woman! With gorgeous art, a period setting and contemporary flair, writer/artist Renae De Liz (THE LAST UNICORN), with help from artist Ray Dillon (NOBLE CAUSES), stunningly retells the origin of the greatest superheroine the world has ever known! Collects THE LEGEND OF WONDER WOMAN digital chapters #1-27.

**Theodore Spandounes: On the Origins of the Ottoman Emperors** Dec 07 2020 Theodore Spandounes belonged to a Byzantine refugee family who had settled in Venice after the Ottoman conquest of Constantinople in 1453. He wrote an account of the origins of the Turkish rulers and of their phenomenal rise to power. It was partly a plea to the Popes and princes of western Christendom to unite against the infidel and one of the earliest works of its kind. The first version of the book, written in Italian, appeared in 1509 and was translated into French in 1519. The final version was made in 1538 and a full Italian text was published in 1890 though without any historical commentary. This book presents an English translation of the full text with a preface, commentary and notes; a discussion of the sources which

Spandounes might have consulted and an assessment of the value and interest of this hitherto neglected and undervalued treatise. *Cambridge History of Christianity: Volume 1, Origins to Constantine* Feb 06 2021 *The Cambridge Companion to Renaissance Humanism* Dec 19 2021 From the fourteenth to the seventeenth century, humanism played a key role in European culture. Beginning as a movement based on the recovery, interpretation and imitation of ancient Greek and Roman texts and the archaeological study of the physical remains of antiquity, humanism turned into a dynamic cultural programme, influencing almost every facet of Renaissance intellectual life. The fourteen essays in this 1996 volume deal with all aspects of the movement, from language learning to the development of science, from the effect of humanism on biblical study to its influence on art, from its Italian origins to its manifestations in the literature of More, Sidney and Shakespeare. A detailed biographical index, and a guide to further reading, are provided. Overall, *The Cambridge Companion to Renaissance Humanism* provides a comprehensive introduction to a major movement in the culture of early modern Europe. **The Modern World-System I** Nov 25 2019 Immanuel Wallerstein's highly influential, multi-volume opus, *The Modern World-System*, is one of this century's greatest works of social science. An innovative,

panoramic reinterpretation of global history, it traces the emergence and development of the modern world from the sixteenth to the twentieth century.

**Crimcomics** May 24 2022  
CrimComics offers a new way to approach criminological theory by engaging students with impactful, highly visual illustrated texts. Each CrimComics Issue traces the development of the theory--placing it in social and political context--and demonstrates its application to the real world. The last page of each Issue features review questions and key terms. Issue 1, *Origins of Criminology*, introduces students to the two major schools of criminological thought: the Classical School and the Positivist School. This issue discusses the concepts developed by the major proponents of these schools: Cesare Beccaria, Jeremy Bentham, and Cesare Lombroso. Upcoming issues include Issue 2: *Biology and Criminality* and Issue 3: *Classical and Neoclassical Criminology*.

**The Origins of History** Dec 27 2019  
A distillation of the thought and research to which Herbert Butterfield devoted the last twenty years of his life to, this book, originally published in 1981, traces how differently people understood the relevance of their past and its connection with their religion. It examines ancient Egypt and Mesopotamia; the political perceptiveness of the Hittites; the Jewish sense of God in history, of promise and fulfilment; the classical

achievement of scientific history; and the unique Chinese tradition of historical writing. The author explains the problems of the early Christians in relating their traditions of Jesus to their life and faith and the emergence, when Christianity became the religion of the Roman Empire, of a new historical understanding. The book then charts the gradual growth of a sceptical approach to recorded authority in Islam and Western Europe, the reconstruction of the past by deductive analysis of the surviving evidence and the secularisation of the eighteenth century.

*The History of the Panzerjäger* Mar 10 2021  
The German Panzerjäger, or Panzerjägertruppe, was one of the most innovative fighting arms of World War II and its story has never properly been told. Many books have focused on an element of the story - the Hetzer, Jagdpanzer, Jagdpanther - but this is the first time that the whole story of the development and organization of Nazi Germany's anti-tank force will have been covered, from its earliest origins in World War I, through its development in the interwar period, and its baptism of fire in the early days of World War II. This is the first of two volumes that will trace the story through the glory years of Blitzkrieg and the improvements that were made when Soviet tanks were first encountered, leading to new weapons, tactics and organization. It is packed with previously unpublished wartime photographs, combat

reports, and detailed charts and statistics to give an unparalleled account of this unique arm of the Wehrmacht. *A Monetary and Fiscal History of Latin America, 1960-2017* Feb 27 2020  
A major, new, and comprehensive look at six decades of macroeconomic policies across the region. What went wrong with the economic development of Latin America over the past half-century? Along with periods of poor economic performance, the region's countries have been plagued by a wide variety of economic crises. This major new work brings together dozens of leading economists to explore the economic performance of the ten largest countries in South America and of Mexico. Together they advance the fundamental hypothesis that, despite different manifestations, these crises all have been the result of poorly designed or poorly implemented fiscal and monetary policies. Each country is treated in its own section of the book, with a lead chapter presenting a comprehensive database of the country's fiscal, monetary, and economic data from 1960 to 2017. The chapters are drawn from one-day academic conferences—hosted in all but one case, in the focus country—with participants including noted economists and former leading policy makers. Cowritten with Nobel Prize winner Thomas J. Sargent, the editors' introduction provides a conceptual framework for analyzing fiscal and monetary policy in countries around the world, particularly those less

developed. A final chapter draws conclusions and suggests directions for further research. A vital resource for advanced undergraduate and graduate students of economics and for economic researchers and policy makers, *A Monetary and Fiscal History of Latin America, 1960–2017* goes further than any book in stressing both the singularities and the similarities of the economic histories of Latin America's largest countries. *English Origins of New England Families, from the New England Historical and Genealogical Register. Second Series, in Three Volumes* Oct 24 2019

**Origins** Oct 29 2022 Fae marry for love. Angels marry for politics. Vea has dreamed of becoming queen of the fae since she was a girl. But once she finally takes her throne, and her world is under attack by ruthless soul eaters, she's forced to watch it burn or marry a man she hates--Lux, king of Angels. Nix is the half Elvan, half Angel bastard prince of both the elvan nation and the land of the angels. When he takes his place as hand of the king beneath his brother, it becomes his duty to guard the new queen, Vea. Will Vea assimilate into a world where women are traded like cattle, or will she steal Lux's world out from under him with his brother at her side? If you

liked Game of Thrones and From Blood and Ash, you'll love the sexy, magical world of Origins of the Gods. Intended only for mature audiences.

◆This series can be read on its own but is a distant prequel series to the urban fantasy Eluding Destiny series. (As in, thousands of years in the past.)◆

PopMatters Winner of the Los Angeles Times Book Prize •

National Book Critics Circle Award Finalist • Dayton

Literary Peace Prize Finalist • PEN/John Kenneth Galbraith Award for Nonfiction Finalist • PEN/Jean Stein Book Award Longlist “As we go about our daily lives, caste is the wordless usher in a darkened theater, flashlight cast down in the aisles, guiding us to our assigned seats for a performance. The hierarchy of caste is not about feelings or morality. It is about power—which groups have it and which do not.” In this brilliant book, Isabel Wilkerson gives us a masterful portrait of an unseen phenomenon in America as she explores, through an immersive, deeply researched narrative and stories about real people, how America today and throughout its history has been shaped by a hidden caste system, a rigid hierarchy of human rankings. Beyond race, class, or other factors, there is a powerful caste system that influences people’s lives and behavior and the nation’s fate. Linking the caste systems of America, India, and Nazi Germany, Wilkerson explores eight pillars that underlie caste systems across civilizations, including divine will, bloodlines, stigma, and more. Using riveting stories about people—including Martin Luther King, Jr., baseball’s Satchel Paige, a single father and his toddler son, Wilkerson herself, and many others—she shows the ways that the insidious undertow of caste is experienced every day. She documents how the Nazis studied the racial systems in America to plan their outcasting of the Jews; she

discusses why the cruel logic of caste requires that there be a bottom rung for those in the middle to measure themselves against; she writes about the surprising health costs of caste, in depression and life expectancy, and the effects of this hierarchy on our culture and politics. Finally, she points forward to ways America can move beyond the artificial and destructive separations of human divisions, toward hope in our common humanity. Beautifully written, original, and revealing, *Caste: The Origins of Our Discontents* is an eye-opening story of people and history, and a reexamination of what lies under the surface of ordinary lives and of American life today.

**Eluding Destiny** Sep 15 2021 Being the most powerful Fae Angel hybrid the world has ever seen seems like a good time. Having a soulmate doesn't seem too bad either.

For the most part? Laila's pretty happy to be that girl. Until the best parts of her life are ripped out from beneath her. In just a few days, everything in Laila's life changes. The brother she never knew existed shows up from the Fae Realm looking for her and their mother. Her once perfect love life crumbles in the blink of an eye. If things aren't hard enough already, her oldest family friend is murdered too. And the nosy detective in town is pointing fingers Laila's way. Is it all connected? How could it be? She saw what Jeremy did with her own eyes. Well, in someone else's memories, but she still saw it. Why is she questioning it? Why can't she shake the feeling that there's more to all of this than she can see? Things started to go array before her brother entered the picture. And he seems nice enough. Surely, it can't be his fault. But what else could it all boil down to? Or rather... Who could it boil down to?

**Maps of Time** Apr 30 2020 Presents a new perspective for looking at history from the origins of the universe to present day.

**How the Irish Saved Civilization** Jul 14 2021 The perfect St. Patrick's Day gift, and a book in the best tradition of popular history -- the untold story of Ireland's role in maintaining Western culture while the Dark Ages settled on Europe. Every year millions of Americans celebrate St. Patrick's Day, but they may not be aware of how great an influence St. Patrick was on the subsequent history of

civilization. Not only did he bring Christianity to Ireland, he instilled a sense of literacy and learning that would create the conditions that allowed Ireland to become "the isle of saints and scholars" -- and thus preserve Western culture while Europe was being overrun by barbarians. In this entertaining and compelling narrative, Thomas Cahill tells the story of how Europe evolved from the classical age of Rome to the medieval era. Without Ireland, the transition could not have taken place. Not only did Irish monks and scribes maintain the very record of Western civilization -- copying manuscripts of Greek and Latin writers, both pagan and Christian, while libraries and learning on the continent were forever lost -- they brought their uniquely Irish world-view to the task. As Cahill delightfully illustrates, so much of the liveliness we associate with medieval culture has its roots in Ireland. When the seeds of culture were replanted on the European continent, it was from Ireland that they were germinated. In the tradition of Barbara Tuchman's *A Distant Mirror, How The Irish Saved Civilization* reconstructs an era that few know about but which is central to understanding our past and our cultural heritage. But it conveys its knowledge with a winking wit that aptly captures the sensibility of the unsung Irish who relaunched civilization. **BONUS MATERIAL:** This ebook edition includes an excerpt from Thomas Cahill's *Heretics and Heroes*.

[The Origins of Political Order](#)  
Jul 26 2022 Nations are not trapped by their pasts, but events that happened hundreds or even thousands of years ago continue to exert huge influence on present-day politics. If we are to understand the politics that we now take for granted, we need to understand its origins. Francis Fukuyama examines the paths that different societies have taken to reach their current forms of political order. This book starts with the very beginning of mankind and comes right up to the eve of the French and American revolutions, spanning such diverse disciplines as economics, anthropology and geography. *The Origins of Political Order* is a magisterial study on the emergence of mankind as a political animal, by one of the most eminent political thinkers writing today. [Fae Origins](#) Aug 03 2020 An uncommon magic. A sexy supernatural stalker. A disastrous curse. The last thing McKenna Sawyer needs in her life is a stalker, even if he's drop-dead gorgeous. She already has finals to worry about, not to mention what she's going to do with her life once she officially graduates college. Being distracted is not an option. Until she's almost kidnapped and her stalker saves her. Soon, McKenna is confronted with an earth-shattering realization: the supernatural exist, and there's a war between them. And thanks to some curse her direct descendant-a witch-placed on both the fae and the vampires, McKenna is at the heart of it.

Now McKenna must travel to the Fae world with her stalker-the vampire Aiden-to break the curse. But he's holding something back, something that could ruin the fragile trust the two have built up thus far, and, McKenna can't help but wonder if she's being led into a trap with deadly consequences. [The Origins of Violence in Mexican Society](#) Apr 10 2021 Establishes the interconnections between the economic structure and state violence in Aztec and Conquest Mexico from pre-contact to present-day patterns of state organized crime.  
**The Cambridge History of Modern European Thought: Volume 1, The Nineteenth Century** May 31 2020 *The Cambridge History of Modern European Thought* is an authoritative and comprehensive exploration of the themes, thinkers and movements that shaped our intellectual world in the late-eighteenth and nineteenth century. Representing both individual figures and the contexts within which they developed their ideas, each essay is written in a clear accessible style by leading scholars in the field and offers

both originality and interpretive insight. This first volume surveys late eighteenth- and nineteenth-century European intellectual history, focusing on the profound impact of the Enlightenment on European intellectual life. Spanning twenty chapters, it covers figures such as Kant, Hegel, Wollstonecraft, and Darwin, major political and intellectual movements such as Romanticism, Socialism, Liberalism and Feminism, and schools of thought such as Historicism, Philology, and Decadence. Renouncing a single 'master narrative' of European thought across the period, Warren Breckman and Peter E. Gordon establish a formidable new multi-faceted vision of European intellectual history for the global modern age.

**A History of the Federal Reserve, Volume 1** Oct 17 2021 This first volume of Allan H. Meltzer's history of the Federal Reserve System covers the period from the Federal Reserve's founding in 1913 through the Treasury-Federal Reserve Accord of 1951. To understand why the Federal Reserve acted as it did at key points in its history, Meltzer draws on meeting minutes, correspondence, and other internal documents (many made public only during the 1970s) to trace the reasoning behind its policy decisions. He explains why the Federal Reserve remained passive throughout most of the economic decline that led to the Great Depression, and how the Board's actions helped to produce the deep recession of

1937 and 1938. He also highlights the impact that individuals had on the institution, such as Benjamin Strong, governor of the Federal Reserve Bank of New York in the 1920s, who played a large role in the adoption of a more active monetary policy by the Federal Reserve. From attempts to build a new international financial system at the London Monetary and Economic Conference of 1933 to the Bretton Woods Agreement of 1944 that established the International Monetary Fund and the World Bank, Meltzer also examines the influence the Federal Reserve has had on international affairs. The second, and last volume of this history covers the years 1951 to 1986 in two parts. These include the time of the Federal Reserve's second major mistake, the Great Inflation, and the subsequent disinflation. The volume summarizes the record of monetary policy during the inflation and disinflation.

**U.S. History** Aug 27 2022 Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race,

class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

*American Colonies* Aug 15 2021 A multicultural, multinational history of colonial America from the Pulitzer Prize-winning author of *The Internal Enemy* and *American Revolutions* In the first volume in the Penguin History of the United States, edited by Eric Foner, Alan Taylor challenges the traditional story of colonial history by examining the many cultures that helped make America, from the native inhabitants from millennia past, through the decades of Western colonization and conquest, and across the entire continent, all the way to the Pacific coast. Transcending the usual Anglocentric version of our colonial past, he recovers the importance of Native American tribes, African slaves, and the rival empires of France, Spain, the Netherlands, and even Russia in the colonization of North America. Moving beyond the Atlantic seaboard to examine the entire continent, *American Colonies* reveals a pivotal period in the global interaction of peoples, cultures, plants, animals, and microbes. In a vivid narrative, Taylor draws upon cutting-edge scholarship to create a timely picture of the colonial world characterized by an interplay of freedom and slavery, opportunity and loss.

"Formidable . . . provokes us to contemplate the ways in which residents of North America have dealt with diversity." -The New York Times Book Review *Inhumans* Oct 05 2020 In 1965, a strange family of outcasts made their debut in the pages of *Fantastic Four*. The uncanny *Inhumans* quickly became more than just another set of adversaries and they all but took over and made the magazine their own! The mysterious origins of Black Bolt, Medusa, Gorgon, Triton, Karnak, Crystal and Lockjaw were revealed month after month in *FF* until reader demand gave them their own feature in the back pages of *Thor*. Now, the story of the *Inhumans* and their wondrous, secret land Attilan is collected from the very beginning for the first time ever! From Medusa's debut as a member of the Frightful Four to the battle to break the Great Barrier, it's all here in incomparable Stan and Jack fashion! COLLECTING: FANTASTIC FOUR (1961) 36, 38-47, 62-65, ANNUAL 5 and material from 48, 50, 52, 54-61, THOR

*The Ideological Origins of the American Revolution* Jun 12 2021 To the original text of what has become a classic of American historical literature, Bernard Bailyn adds a substantial essay, "Fulfillment," as a Postscript. Here he discusses the intense, nationwide debate on the ratification of the Constitution, stressing the continuities between that struggle over the foundations of the national government and the original principles of the Revolution. This detailed study

of the persistence of the nation's ideological origins adds a new dimension to the book and projects its meaning forward into vital current concerns.

### **English for Specific**

**Purposes** Jan 20 2022 English for Specific Purposes offers the teacher a new perspective on this important field. The main concern is effective learning and how this can best be achieved in ESP courses. The authors discuss the evolution of ESP and its position today; the role of the ESP teacher; course design; syllabuses; materials; teaching methods, and evaluation procedures. It will be of interest to all teachers who are concerned with ESP. Those who are new to the field will find it a thorough, practical introduction while those with more extensive experience will find its approach both stimulating and innovative.

**Origins** Feb 18 2022 Bianca, a timid and shy university student, has no choice but to step outside her comfort zone to seek answers to her ghostly problems. The only problem is that, because of what she finds, she now has more questions than before. I've been in a book funk for a while now and this wholly and completely has brought me out of it. The mystery that kind of sits behind everything is perfect, as is the character development. I seriously can't believe I waited this long to jump in to this series. -laci jo harding The things I see aren't for the faint of heart. And I am no longer willing to ignore them. Not even when my family, and my best friend, tell me to keep

quiet about what's happening. They say people will think I'm crazy. Maybe I am. But the spirit haunting my professor's house is definitely trying to tell me something, and I'm the only one who can see it. The one person who can help me is my best friend's brother. But I don't know if I can trust him or his friends. Or if I can step outside the protective bubble I've built around myself. At this point it's a toss up: the ghosts will kill me or my panic attacks will. Either way, I figure I'm going to die.

### **The Origins of the First**

**World War** Sep 23 2019 James Joll's study is not simply another narrative, retracing the powder trail that was finally ignited at Sarajevo. It is an ambitious and wide-ranging analysis of the historical forces at work in the Europe of 1914, and the very different ways in which historians have subsequently attempted to understand them. The importance of the theme, the breadth and sympathy of James Joll's scholarship, and the clarity of his exposition, have all contributed to the spectacular success of the book since its first appearance in 1984. Revised by Gordon Martel, this new 3rd edition accommodates recent research and an expanded further reading section.

**The Expanse Origins #1** Mar 22 2022 Based on the bestselling books and tying into the hit television series, *THE EXPANSE ORIGINS* reveals the untold origins of the crew members of *The Rocinante*. As

interplanetary tensions reach an all-time high, the crew of *The Rocinante* finds themselves at the center of a conflict that threatens to destroy all of human civilization. But before they were heroes, each member of the crew faced moments that would come to define them and brought them one step closer to the ship they now call home. Featuring a story by author James S.A. Corey that explores the past of each character and what set them off on the winding roads that led to *The Rocinante*, this series is a must read for fans of the books and show alike. Before James Holden was a member of the crew of *The Rocinante*, he was a lieutenant in Earth's navy on board the UNN *Zheng Fei*. When their ship met an unidentified belter cargo vessel suspected of OPA ties, Holden faced a choice that would come to define his time in the navy.

*The Oxford History of the British Empire: Volume I: The Origins of Empire* May 12 2021 Volume I of *The Oxford History of the British Empire* explores the origins of empire. It shows how and why England, and later Britain, became involved with transoceanic navigation, trade, and settlement during the sixteenth and seventeenth centuries. As late as 1630 involvement with regions beyond the traditional confines

of Europe was still tentative; by 1690 it had become a firm commitment. *The Origins of Empire* explains how commercial and, eventually, territorial expansion brought about fundamental change, not only in the parts of America, Africa, and Asia that came under British influence, but also in domestic society and in Britain's relations with other European powers. The chapters, by leading historians, both illustrate the interconnections between developments in Europe and overseas and offer specialist studies on every part of the world that was substantially affected by British colonial activity. Their analysis also focuses on the ethical issues that were presented by the encounter with peoples previously unknown to Europeans, and on the ways in which the colonists struggled to justify their conduct and activities. Series blurb *The Oxford History of the British Empire* is a major new assessment of the Empire in the light of recent scholarship and the progressive opening of historical records. From the founding of colonies in North America and the West Indies in the seventeenth century to the reversion of Hong Kong to China at the end of the twentieth, British imperialism was a catalyst for far-reaching change. *The Oxford History of the British Empire* as a comprehensive study allows us to understand the end of Empire in relation to its beginnings, the meaning of British imperialism for the ruled as well as the rulers, and the significance of the British

Empire as a theme in world history.
