The Black Middle Ages Sep 01 2020 The Black Middle Ages examines the influence of medieval studies on African-American thought. Matthew X. Vernon focuses on nineteenth century uses of medieval texts to structure racial identity, but also considers the flexibility of medieval narratives more broadly in the medieval period, twentieth and twenty-first centuries. This book engages disparate discourses to reassess African-American positionalities in time and space. Utilizing a transhistorical framework, Vernon reflects on medieval studies as a discipline built upon a contended set of ideologies and acts of imaginative appropriation visible within source texts and their later mobilizations.

Voices from the Middle Jul 31 2020 I stepped foot into the classroom for the first time when I was 40 years old, full of passion for science and intent to change the lives of every student who walked through my doors. What I did not realize was how profoundly they would end up changing mine. All of the stories in this book are true. While these stories occurred over several years and in different settings, they are retold in these chapters under the guise of a single school year; one building, one classroom. For 180 days, our stories are intertwined—theirs and mine. The details of our shared experiences unfold against the backdrop of rattling lockers and long, winding hallways that connect our comings and goings. We share new discoveries. Tediously long days and longer weekends. Anxious moments. Pizza. First relationships. Broken hearts and missed opportunities. Perseverance. Resilience. Hope. Friendship and Love. This is our story. Hear our voices.

The Middle School Rules of Thomas Morstead Apr 08 2021 “Before he earned a Super Bowl ring and started a foundation, he had to survive middle school.” Thomas Morstead entered his 12th NFL season with the New Orleans Saints, distinguishing himself as one of the league’s top punters. In Super Bowl XLIV, he executed an onside kick that the Saints recovered and parlayed into a touchdown to take a 13-10 lead. The Saints defeated the Indianapolis Colts to win the Super Bowl. In 2014, Thomas and his wife Lauren started What You Give Will Grow, a foundation committed to improving the lives of those in need, with a strong focus on children and cancer initiatives, in New Orleans and the Gulf South communities. The Middle School Rules of Thomas Morstead shares how Thomas learned about his cultural roots, handled being bullied for his appearance, and dealt with the disappointment of not making the high school varsity soccer team. Stories of the Middle Space Feb 18 2022 "Postmodernism's critics often accuse the movement of being dangerously amoral because of its apparent wariness of concepts such as truth, ethics, and justice. Stories of the Middle Space explores the possibility of "postmodernism-with-a-conscience" and examines a variety of British and Canadian postmodern fiction to show how twentieth-century critical theory can be brought into fruitful dialogue with a faith-based perspective." "Highlighting the wide variety of ethical concerns considered by writers such as Timothy Findley, Thomas King, Carol Shields, Julian Barnes, A.S. Byatt, and Salman Rushdie, Deborah Bowen makes the case for a new category of "postmodern realism" and shows how contemporary stories about "the real" and "the good" are constructed. Applying theoretical insights from Emmanuel Levinas and Mikhail Bakhtin, Bowen investigates categories of postmodern realism such as magic realism, parody, and metafiction while laying the groundwork for Christian readings of a medium that is often perceived as largely irreligious." "An illuminating study of well-known contemporary writers, Stories of the Middle Space is a critically nuanced and methodologically innovative work that reads the postmodern from a faith-based perspectives to create new literary insights." "Deborah Bowen addresses the ethical concerns of a wide variety of postmodern fiction from a faith-based perspective that engages with the decentred discourses of post-structuralism. She suggests that a focus on the middle space between language and the world not only provides new insights into the construction of the real and the notion of a "good" story but also resituates the possibility of Christian reading in a largely post-Christian era"--BOOK JACKET.

The Experience of Beauty in the Middle Ages Jun 29 2020 This book articulates a new approach to medieval aesthetic values, emphasizing the sensory and emotional basis of all medieval arts, their love of play and fine craftsmanship, of puzzles, and of strong contrasts. Written for a general educated audience as well as students and scholars in the field, it offers an understanding of medieval literature and art that is rooted in the perceptions and feelings of ordinary life, made up of play and laughter as well as serious work. Medieval stylistic values of variety, sweetness, good taste, and ordinary beauty are grounded in classical and medieval biological theories of change and flux in the human body, not only in symbolism and theology. The book will appeal to all lovers of medieval arts, literature, architecture, music, and painting, as well as serious students of religion and the language of beauty.

The Translation of Religious Texts in the Middle Ages Dec 04 2020 The transition from Latin to vernacular languages in the late Middle Ages and the dramatic rise of a new readership produced a huge bulk of translations, particularly of religious literature in its various genres. The solutions are so multifarious that they defy any attempt to outline general theories. This is particularly visible when the same text is translated or rewritten at different times and in different languages or genres. Through a minute analysis of texts this book aims at highlighting lexical, syntactic and stylistic choices dictated not only by the source but also by new readers and patrons, or by new destinations of the works. Established categories such as 'literalness' and 'fidelity' are thus questioned and integrated with these other factors which, while being more 'external', do nonetheless impinge on the very idea of 'translation', and consequently on its assessment. Far from being a mere transfer from one language to another, a medieval translation verges on a form of creative writing, and as such its study becomes a fascinating investigation into the very process of textual production.

The Middle Dec 28 2022 On 1 January 1999, Travis Gale (aged 17) and Stephen Bonaconsa (aged 27) left Johannesburg on a mission to cycle across four continents and raise R1 million for children living with, and affected by HIV/AIDS in KwaZulu-Natal. They pedalled out of Johannesburg, riding mountain bikes equipped with panniers, carrying the basic requirements for an adventure. They rode unsupported. No Instagram or Facebook. It was just the two of them and the open road. The pair successfully cycled over 16 000 kilometres, across four continents, through 16 countries, raising R1.7 million for their cause. When asked to share about his experience, Travis very rarely spends time talking about the start or the finish of the tour. The stories Travis shares are from *The Middle*. It's *The Middle* that tests us with challenges, yielding a multitude of emotions. It's *The Middle* that involves the raw and often painful need to dig deep, to push through the barriers that stand in our way, and show ourselves what we are capable of. *The Middle* is what we, as human beings, were designed for. We can all pitch up at start lines. We can all celebrate a finish. But no finish is without a Middle and every Middle is where WHO WE ARE is revealed. This book, *The Middle*, includes eight stories, drawn from eight key days of a world cycle tour, which will encourage and equip people through *The Middle*, the territory we must navigate in pursuit of our goals. Keep going. Increase momentum towards meaningful goals. Develop grit and resilience in the midst of tough terrain. Push through barriers that consistently get in the way. Learn practical frameworks for making things happen. Stretch yourself to do more than you thought possible. Finish well!

The Book of Nature and Humanity in the Middle Ages and the Renaissance Nov 22 2019 Some modern commentators welcome the alleged approach of the 'post-human' era as a liberation from the constraints of essentialist identity. Others lament it as a harbinger of the death of the soul. But both groups will find it instructive to consider that the nature of humanity has always been a contested topic. The chapters collected here suggest that the emergence of the modern idea of the human was at least as fraught a process as its putative demise. David Hawkes and Richard G. Newhauser have selected a wide array of contributions for this volume. Renowned scholars from several disciplines have produced a series of fascinating essays, which concentrate on the relation between humanity and nature as it was understood in the medieval and early modern periods. The issues they examine range from poaching to flatulence, from Aztec animal symbolism to Jesus's grandmother, from tulips to the Trinity. Some chapters examine a wide variety of popular texts, from the bloody legend of Robert the Devil to the sinister magic of the Anglo-Saxon 'wen charm,' from Lutheran Books of Nature to Emperor Maximilian's wedding. The result is a book that raises intriguing implications for the modern struggle over the meaning of mankind.

The Wall in the Middle of the Book Nov 27 2022 A foolish knight is certain that his side of the wall is the safe side in this clever, amusingly meta picture book by the acclaimed creator of *It's Only Stanley*. There's a wall in the middle of the book, and our hero--a young knight--is sure that the wall protects his side of the book from the dangers of the other side--like an angry tiger and giant rhino, and worst of all, an ogre who would gobble him up in a second! But our knight doesn't seem to notice the crocodile and growing sea of water that are emerging on his side. When he's almost over his head and calling for help, who will come to his rescue? An individual who isn't as dangerous as the knight thought--from a side of the book that might just have some positive things to offer after all!

Aeronomy of the Middle Atmosphere Dec 16 2021 The reader may be surprised to learn that the word "aeronomy" is not found in many of the standard dictionaries of the English language (for exam ple.

Webster's International dictionary). Yet the term would appear to exist, as evidenced by the affiliations of the two authors of this volume (Institut d'Aeronomie, Brussels, Belgium; Aeronomy Laboratory, National Oceanic and Atmospheric Administration, Boulder, CO, USA). Perhaps part of this obscurity arises because aeronomy is a relatively new and evolving field of endeavor, with a history dating back no farther than about 1940. The Chambers dictionary of science and technology provides the following definition: "aeronomy (Meteor.). The branch of science dealing with the atmosphere of the Earth and the other planets with reference to their chemical composition, physical properties, relative motion,

Lying in the Middle Feb 24 2020 The local and regional shows staged throughout America use musical theater's inherent power of deception to cultivate worldviews opposed to mainstream ideas. Jake Johnson reveals how musical theater between the coasts inhabits the middle spaces between professional and amateur, urban and rural, fact and fiction, fantasy and reality, and truth and falsehood. The homegrown musical provides a space to engage belief and religion—imagining a better world while creating opportunities to expand what is possible in the current one. Whether it is the Oklahoma Senior Follies or a Mormon splinter group's production of *The Sound of Music*, such productions give people a chance to jolt themselves out of today's post-truth malaise and move toward a world more in line with their desires for justice, reconciliation, and community. Vibrant and strikingly original, *Lying in the Middle* discovers some of the most potent musical theater taking place in the hoping, beating hearts of Americans.

English Literature of the Middle Ages May 29 2020 This new guide covers seven hundred years of English literature. Stephen Coote describes the major figures and works of the period - Beowulf, King Alfred, Chaucer, Langland, Henryson, the Gawain-poet and Malory as well as lesser-known poets. Considerable attention is given to Chaucer and the extensive treatment of 'Troilus and Criseyde' demonstrates the range of concerns that can be brought to a medieval text. Chapters are devoted to alliterative poetry, popular romance, ballad and lyric, medieval drama and Middle English prose, set against a background of the European literary tradition and of medieval circumstances and ways of thought. The discussion of the development of the language from Old English to Middle English show how, through the genius of Chaucer, it took 'its place beside the great literary vernaculars of Europe'. -- Book cover.
