Wreck This Journal (Red) Expanded Ed. Oct 19 2021 "Not gonna lie, this is probably the coolest journal you'll ever see. . . . Wreck This Journal is here to inspire you." —Buzzfeed The internationally bestselling phenomenon with more than 10 million copies sold—and an excellent holiday gift! Paint, poke, create, destroy, and wreck—to create a journal as unique as you are For anyone who's ever had trouble starting, keeping, or finishing a journal or sketchbook comes this expanded edition of Wreck This Journal, a subversive illustrated book that challenges readers to muster up their best mistake- and mess-making abilities to fill the pages of the book—or destroy them. Through a series of creative and quirky prompts, acclaimed guerilla artist Keri Smith encourages journalers to engage in destructive acts—poking holes through pages, adding photos and defacing them, painting pages with coffee, coloring outside the lines, and more—in order to experience the true creative process. With Smith's unique sensibility, readers are introduced to a new way of art- and journal-making, discovering novel ways to escape the fear of the blank page and fully engage in the creative process. To create is to destroy. Happy wrecking!

Hacking and Penetration Testing with Low Power Devices Sep 17 2021

Hacking and Penetration Testing with Low Power Devices shows you how to perform penetration tests using small, low-powered devices that are easily hidden and may be battery-powered. It shows how to use an army of devices, costing less than you might spend on a laptop, from distances of a mile or more. *Hacking and Penetration Testing with Low Power Devices* shows how to use devices running a version of The Deck, a full-featured penetration testing and forensics Linux distribution, and can run for days or weeks on batteries due to their low power consumption. Author Philip Polstra shows how to use various configurations, including a device the size of a deck of cards that can easily be attached to the back of a computer. While each device running The Deck is a full-featured pen-testing platform, connecting systems together via 802.15.3 networking gives you even more power and flexibility. This reference teaches you how to construct and power these devices, install operating systems, and fill out your toolbox of small low-power devices with hundreds of tools and scripts from the book's companion website. *Hacking and Pen Testing with Low Power Devices* puts all these tools into your hands and will help keep you at the top of your game performing cutting-edge pen tests from anywhere in the world! Understand how to plan and execute an effective penetration test using an army of low-power devices Learn how to configure and use open-source tools and easy-to-construct low-power devices Leverage IEEE 802.15.4 networking to perform penetration tests from up to a mile away, or use 802.15.4 gateways to perform pen tests from anywhere in the world Access penetration testing operating systems with hundreds of tools and scripts on the book's companion web site
